

NEWEAN JUNIOR

PACKAGING

25 bags

BENEFITS

HIGH SECURITY : **NEWEAN Junior** contains 70 % of high quality milk products and highly digestible protein sources (including 35% of SMP). It is designed to fulfil nutritional requirements of young growing calves.

NEWEAN Junior contains a probiotic, *Enterococcus faecium* NCIMB 10415 ($1,5 \times 10^9$ CFU/g).

VITALITY : **NEWEAN Junior** includes high levels of vitamin E and organic selenium (100 % selenium in organic form).

EASY TO USE : **NEWEAN Junior** benefits from modern manufacturing technologies : 1) projection of liquid fat (dry technique) 2) the «Spray» technique allowing a higher solubility in warm water. Produced in a dairy industry.

DIGESTIBILITY : **NEWEAN Junior** raw materials are carefully selected for their digestibility : spray dried milk products, vegetable proteins of high biological value and vegetable fats.

ECONOMICAL : **NEWEAN Junior** is specially designed to reduce cost of production.

NEWEAN Junior is produced in an ISO 9001 factory.

COMPOSITION

Milk products, vegetable fats, products and by-products of oleaginous seeds, products and by-products of cereal grains, vitamins and minerals.

Analytical composition

Crude protein	22 %
Fat	17 %
Crude fiber	0.1 %
Ash	7.5 %
